Sir:

In response to the Office Action dated **September 19, 2002**, please amend the above-identified application as follows:

**IN THE CLAIMS:**

Please amend Claim 1, as follows:

1. (Thrice Amended) A workpiece-transfer device for loading a material workpiece in a workpiece-machining device and unloading a machined product workpiece from the workpiece-machining device, characterized in that the workpiece-transfer device includes a movement means with a rectangular coordinate system for moving a traveling body in a first horizontal direction along the direction in which the workpiece-machining device and a workpiece-storage device stand, said workpiece-machining device and said workpiece-storage device being in a line along said first direction with said workpiece-transfer device located therebetween, as well as
